Dezone provides the best available solution to meet the high quality water treatment requirement of the industries.

The process water product and technologies offered by Dezone:

1. Pretreatment:
   - Intake Screening
   - Bag and Cartridge Filtration
   - Water Screens
   - PH Adjustment
   - High Rate Settling
   - Chemical Precipitation
   - Softening
   - Rapid Filtration
   - Micro , Ultra and Nano Filtration
2. Biological Treatment:
   - Anaerobic Treatment
   - Aerobic Treatment
3. Demineralization:
   - Membrane Filtration
   - Resin Exchange
   - Reverse Osmosis
4. Disinfection :
   - Gas Chlorination
   - On – site Chlorine Generation Systems
   - Ozone Generation Systems
   - UV Radiation

5. Water Reuse and Reclaimation
   - Backwash Water Reclaim
   - Clarification
   - Multi Media Filtration
   - Membrane Filtration
6. Solids Management :
   - Thickening
     - Gravity Thickening
     - Gravity Belt Thickening
   - Dewatering
     - Filter Presses
     - Belt Filter Presses
     - Centrifuges
   - Polymer dosing
7. Odor Control
   - Activated Carbon Absorption
